

Hyundai Genuine Accessories

Nothing fits better than a Hyundai Genuine Accessory. Designed and engineered to enhance the looks and capabilities and meet the rigorous manufacturing standards demanded of all Hyundai products.

5 Year Unlimited Mileage Warranty

Living proof of our faith and trust in our products is our 5-year new vehicle warranty which comes without any mileage restrictions.

Waxoyl

Motors Inc. recommends a full Waxoyl package on all newly acquired models. This package consists of 120-4 Cavity Protector, Underbody Protector, Motor Care Engine Protection, UPT Fabric Protector and 100+ paint sealant effectively giving you a 12-year anti-perforation warranty on your new car.

Waxoyl complements the manufacturer's warranty and will help to maintain the new look of your car for many years to come, thus protecting your investment and enhancing its future resale value.

The Hyundai 5 Year Unlimited Mileage Warranty applies only to Hyundai vehicles that have been originally sold by an authorized Hyundai dealer to an end-customer, as set out in the terms and conditions of the warranty booklet.

All the information contained in this brochure is provisional and subject to change without notice and is intended only as preliminary notification. Possible variations in the representation of vehicle colours are due to the limitations of printing technology. The products shown correspond to the offer and the range of equipment for European markets. The vehicles shown in this brochure may be equipped with additional equipment at extra cost, and not all model versions are included in this brochure. Hyundai Motor Europe reserves the right to make changes to technical specifications and equipment content without notice. Please consult your Hyundai dealer for exact details.

The New
Hyundai i30

Striking design. Enhanced efficiency. The new i30.

The signature Hyundai hexagonal grille dominates the front of every new i30 creating an impression of strength and character, qualities that you've come to expect from Hyundai. New Bi-Xenon headlamps and LED Daytime running lights add a distinct dynamic accent, flanking the grille within the finely sculpted bodywork. And, to accentuate the agile style of the new i30, we've added the option of newly designed alloy wheels.

The i30 Turbo (shown here) is identified by its blacked-out grille, red accent inlay and silver wing shape set into the unique front bumper. 18" alloy wheels and a sporty rear bumper with twin exhausts complete the picture.

All other new i30 models get a striking four-bar grille and boldly shaped front fog lamps (see front cover).

But it's not all about looks. Both performance and fuel efficiency have been improved and the new i30 is available with new, user-friendly technology and features.

Sport front seats, sports instrument cluster and contrasting red detailing distinguish the interiors of the i30 Turbo.

Increased performance. Reduced consumption. More choice.

The dynamic performance suggested by the flowing lines of our “Fluidic Sculpture” design concept is delivered by an extended range of diesel and petrol engines, including the new 186 hp unit for the Turbo. All are Euro6 compliant. There’s also a new Dual-Clutch Transmission (DCT) that’s standard with both diesel engines and our 1.6 GDI petrol engine. DCT enables smoother and faster shifting without the usual inefficiencies of a conventional automatic gearbox.

The enhanced driving experience of this new i30 is made even more satisfying by an interior design that echoes the expressive flowing lines of the exterior.

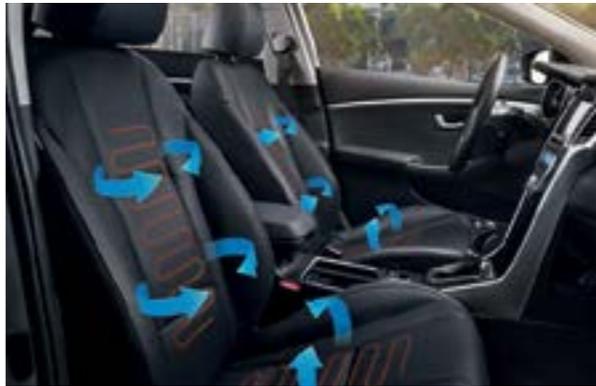

Combined fuel consumption for Hyundai i30 range: X.X - X.X/100 km. Combined CO2 emissions for Hyundai i30 range: XXX -XXX g/km.

Looks good. Feels good. Works perfectly.

The closer you get, the more you'll appreciate the tangible quality that is evident throughout the new i30. Within the very roomy interior you'll notice that materials have been selected not only for longevity, but also to create a quality impression to the eye and to the touch. In addition, all the available state-of-the-art technologies are designed to make every journey as safe and stress-free as possible. And at your journey's end the Smart Parking Assist System will guide you effortlessly into an available parking place. Here are some highlights:

Heated & ventilated front seats. When it's cold outside, nothing is more welcoming than a heated seat. And you'll appreciate the cooling effect of seat ventilation on summer journeys. Both have 3-stage adjustment.

Dual-Clutch Technology. The 7-speed Dual-Clutch Transmission (DCT) brings distinct benefits to both performance and fuel efficiency. Standard with both versions of the 1.6 diesel engine and the 1.6 GDI petrol engine.

Lane Departure Warning System. Instant visual and audible warning of unintentional departure from the lane you're driving in.

Smart Parking Assist System (SPAS). Activated sensors can identify a viable parking space, then steer the i30 perfectly into the available space. You control the accelerator and brake, the system does the rest.
